#### **About Sierra Rutile Limited**

Sierra Rutile is a leading, multi-mine mineral sands company, operating world-class assets and developing a portfolio of growth projects in the south west of Sierra Leone, with its primary commodity mined being natural rutile, a titanium feedstock. The Company has an established operating history spanning approximately 50 years and a resource mine life of another 50 years with one of largest natural rutile deposits in the world and a JORC-Compliant Mineral Resource for measured, indicated and inferred resources for the Sierra Rutile mine of over 866 million tonnes (as at 30 September 2015). Sierra Rutile expects to be the world's largest primary producer of natural rutile in 2016 and its market-led, long-term mine plan has the flexibility to adapt to customer demand.
